## Useful Tools #

Installing `Godoc`, `vet` and `Golint`, three very useful Go tools from the Go team, is highly recommended:

```
$ go get golang.org/x/tools/cmd/godoc
$ go get golang.org/x/tools/cmd/vet
$ go get github.com/golang/lint/golint
```

## Official Resource #

The [official resource](#) for these can be useful.
