

Quiz 9

Question # 1

Q

```
TRUNCATE tblA;
```

What will be the outcome of this query?

COMPLETED 0%

1 of 1

Question # 2

Q

Which statement deletes rows, frees the space containing the table but cannot be rolled back?

COMPLETED 0%

1 of 1

Question # 3

Q

How can you create an empty table from an existing table?

COMPLETED 0%

1 of 1

Question # 4

Q

Which operators can be used in query for pattern matching?

Check Answers

Question # 5

Consider a table with one col having integer data type as follows:

ID
1
0
0
0
1
0
1
1

Write a query to change the values of Col1 from 1 to 0 and from 0 to 1.

We can simply subtract each value from 1 to get the opposite value as follows:

```
UPDATE tbl
SET Col1 = 1 - Col1;
```

```
mysql> UPDATE tbl SET Col1 = 1 - Col1;
Query OK, 8 rows affected (0.01 sec)
Rows matched: 8 Changed: 8 Warnings: 0
```

```
mysql> SELECT * FROM tbl;
```

```
+-----+
| col1 |
+-----+
| 0    |
| 1    |
| 1    |
| 1    |
| 1    |
| 0    |
| 1    |
| 0    |
| 0    |
+-----+
```

```
8 rows in set (0.00 sec)
```
